

## Welcome to the world of N-Jet private aviation services.

N-Jet is one of the world's most comprehensive and efficient private jet companies. N-Jet is a FAR part 135 certified, Chicago area-based aircraft operator with over 35 years of safe and secure private aviation experience. For years, some of the world's most successful corporations have trusted N-Jet as their exclusive flight department.

With N-Jet's exclusive access to the largest alliance of luxury private jet owners and operators, we can secure access to the ideal private jet for any given mission to any destination around the globe. Using our network of the finest private charter jets in every size and performance range, you can be assured that each executive jet charter flight will exceed your needs and expectations.

With N-Jet, the days of arriving at the airport hours before your departure time, waiting in long lines, overcrowded flights, delays and cancellations are over. Flying with N-Jet, you can actually enjoy the convenience of traveling on your schedule.

## At your service.

N-Jet specializes in tailoring travel packages to meet customers' exact specifications. From hotel accommodations and ground transportation to catering and special needs, our concierge-level service can handle any special request. We remain at your service 24 hours a day, 365 days a year.

# FAA PART 135 CERTIFIED

# Put your jet to work for you.

[www.n-jet.com](http://www.n-jet.com)

# Minimize costs and maximize benefits of aircraft ownership.

While the joys and conveniences of owning an aircraft are many, so are the costs. Between hangar fees, maintenance and repair bills, fuel, landing fees and other expenses, the pleasure of owning a jet can often be overshadowed by the business of paying for it. N-Jet offers you a valuable option to capitalize on your asset and lessen your liabilities. Use of your aircraft in commercial service is completely at your discretion.

Choose a flight plan that can help offset the costs of your aircraft by chartering your jet to N-Jet. We maintain a Commercial Air Charter Certificate (NFTA986G), allowing us to generate revenue for you. You can use N-Jet as your worldwide, full-service flight department for every aspect of aircraft management or tailor our services to augment your own flight department. Select from N-Jet's qualified and experienced crew members or assign your own flight crew. Combine the option that works best for your circumstances.

An N-Jet managed aircraft owner-operator has access to our volume fuel discount through our numerous fuel contract agreements. Our insurance buying power also takes advantage of fleet hull rates with liability limits of up to \$500m from AAA+ rated insurance underwriters.

## N-Jet. Your first choice.

N-Jet provides the finest aircraft in the world for business and private travel...from short trips around your state to world tours around the globe. We are one of the world's most comprehensive and efficient private jet companies with over 35 years of safe and secure experience. N-Jet holds the highest air transportation accreditation levels in the industry and we are a FAR (Federal Aviation Regulations) Part 135 Certified Air Carrier.

## The highest accredited levels of safety, security and confidentiality.

An N-Jet managed aircraft is authorized to operate throughout the world and across all oceans including all designated special airspaces. As an N-Jet managed owner-operator, your aircraft becomes part of the N-Jet safety culture with an ARG/US Platinum rating. Our Safety Management System (SMS) is approved and registered with the International Business Aircraft Association at the highest IS-BAO Stage III level.

Prior to any N-Jet managed aircraft flight being released, it must pass a rigorous triple safety evaluation according to N-Jet's proprietary SMS process. Your aircraft will become part of the TSA approved Twelve Five Standard Security Program (TFSSP). Our crew members are trained to identify and handle threats to the aircraft or passengers, and all of them sign sworn statements to maintain strict confidentiality.

## Be confident in who's managing your aircraft.

N-Jet monitors and tracks your aircraft's maintenance requirements and consults with you on the best options for performing the required maintenance and inspections.

Our maintenance department is an FAA 145 Certified Repair Station with worldwide affiliations and, for all certification and manual requirements, N-Jet provides the necessary MEL, CDL, AAIP licensing and registration documentation needs.

## Call 888-FLY-NJET for your free consultation.

Chartering your aircraft with N-Jet can offset the majority of your costs. Join our team today and enjoy future savings.
